Call for Abstracts

Are you involved in a creative, participatory, innovative program, activity, partnership or research project that is contributing to strengthening the health and wellbeing of our border region?

Come share your story!

Themes and topics include but are not limited to:

1. Partnering to Build Participatory Research and Action
2. Supporting and Strengthening the workforce
3. Strengthening Binational Collaboration
4. Maternal and Child Health
5. Migration and Health
6. Chronic Disease
7. Infectious Disease
8. Mental health
9. Human Rights and Health
10. Environmental and Occupational Health
11. Citizen Science
12. Health Systems and Policy

Participant and target Audience includes: Community based organizations, community activists, the healthcare workforce, researchers, governmental programs and all who are working to build healthy communities in our border region.

Abstracts may include a short description of the communities and/or organizations involved, outcomes or impact; community or system engagement, challenges and successes, and hopes/vision for the future. Abstracts are limited to 250 words and should include a contact individual.

Abstracts are due on March 15, 2019 by 5 PM MST. Submit abstracts to:
BHInfoForAction@gmail.com
